📍 Riyadh, Saudi Arabia

🌐 Mohammad Al-Omar

## Profile

---

As a passionate software engineering student at KSU, I have hands-on experience in web development, specializing in technologies like HTML, CSS, JavaScript, React, Java, and PHP. My technical skills, combined with a growing interest in project management, allow me to contribute effectively to both the technical and organizational aspects of a project. I'm eager to continue expanding my knowledge and skills, working on innovative solutions that bridge the gap between development and project leadership.

## Education

---

2021/08 – 2025/06

**Bachelor of Software Engineering**

Riyadh, Saudi Arabia

*King Saud University*

GPA : 4.93

Studying Software Engineering at King Saud University, Helped me build a strong foundation in programming, system design, and software development methodologies.

## Projects

---

### Tashalih

Tashalih is a platform for spare part discovery for customers and inventory management for dealers. In this project, I focused on building the front-end using React, crafting a user-friendly interface that offers seamless functionality and an optimized user experience tailored to both customer needs and dealer operations.

### WEB APPLICATION “ASKCOMMUNITY”

Developed a Stack Overflow-like platform using PHP, JavaScript, HTML/CSS, and MySQL, creating a comprehensive question-and-answer site, while handling both the interactive front-end and robust back-end to support user questions, answers, and community features.

## Skills

---

React

Java

SQL

Python

PHP

Java Spring

Git

Ionic Capacitor

## Courses

---
